

BORIS KLENOVSEK

TEAM LEADER

SUMMARY

Organized and driven Logistics Team Lead with more than three years of experience in the field, six years of management experience in the Hospitality industry and more than two years of experience in the Tech industry.

EXPERIENCE

LOGISTICS TEAM LEADER AT NCR

(Mar 2019–Present)

I am managing a team of 20, where our main goal is processing part orders using services from third-party logistics companies. We closely cooperate with other teams such as Procurement, Accounting and Field Service. I had an opportunity to improve some of the manual processes by making programs designed to automatize manual work with my knowledge of Java, C#, Python, Javascript (HTML/CSS/Angular) which resulted in vastly superior results.

WAITER IN CHARGE AT PRINCESS CRUISES

(Jul 2012–Nov 2018)

Started as a Buffet Steward quickly advanced into the restaurant as a Waiter and accepted office duties with planning sitting schedules for 3800 guests at three dining rooms using excel and company Database software. There I was also leading a section in the dining room with 20 waiters and 20 junior waiters.

DEVELOPMENT WORKER AT TRS SWISS PRODUCTION

(Jan 2009–Nov 2011)

Worked with the suppliers in purchasing parts needed for product remanufacturing, where I have tested them and then passed them to production. I was working on finding a more efficient and cost-effective way of remanufacturing cartridges used in LaserJet Printers.
